## March 14th to March 27th 2010

I take pride and pleasure in congratulating the hundreds of employees from 18 local employers who participated in the Spring Wheel Options campaign. During the two week period from March 14 through March 27 they chose to exercise their right to use an alternative transportation mode (rather than drive alone) to work. Carpooling and compressed work week proved to be the most popular but many chose to dust off the old bicycle and use the "most efficient of all commute modes." There were a few that took the "Shoe Leather Express" to work. Just imagine if Wheel Options weeks were every week of the year! Well, guess what, they are! You have the option of using an alternative transportation mode every day of your life; you just have to make the choice. Congratulations to the winners!
