Metropolitan and Regional Transportation Improvement Programs

for

2020-2023

City of Sunnyside - Sunnyside Avenue #4 (Stackhouse) Bridge Project

Prepared by:

YAKIMA VALLEY CONFERENCE OF GOVERNMENTS
A Metropolitan and Regional Transportation Planning Organization

Preceding Photograph: The City of Sunnyside replaced at 1920's bridge due to weight restrictions. Funded by local and state funding, this new bridge will allow for improved emergency response to residential areas of Sunnyside. (Photo Courtesy of City of Sunnyside / HLA Engineering and Land Surveying, Inc.)

ACKNOWLEDGEMENTS

This short-range investment plan for the Yakima Valley region was prepared using public funds from YVCOG member jurisdictions, the U. S. Department of Transportation's Federal Highway and Federal Transit Administrations, and the Washington State Department of Transportation.

Resolution 2019-15

2020-2023

Yakima Valley Metropolitan and Regional Transportation Improvement Program DETERMINATION OF AIR QUALITY CONFORMITY

A RESOLUTION of the Yakima Valley Metropolitan and Regional Transportation Planning Organization (MPO/RTPO) Policy Board affirming the conformity of the 2020-2023 Yakima Metropolitan Area Transportation Improvement Program (MTIP), with the Washington State Implementation Plan (SIP) for Air Quality.

WHEREAS, YVCOG serves as the designated Metropolitan Planning Organization (MPO) for the Yakima Metropolitan Area; and

WHEREAS, YVCOG's Metropolitan Transportation Improvement Program, hereafter referred to as the MTIP, is the basis for distributing federal transportation funds within the Yakima Metropolitan area; and

WHEREAS, the 2016-2040 Yakima Valley Metropolitan and Regional Transportation Plan, hereafter referred to as the M/RTP, was adopted by YVCOG on March 21, 2016 and provides the long-range transportation plan guiding the development of transportation improvements for the Yakima Metropolitan area; and

WHEREAS, the Federal Clean Air Act Amendments of 1990 and the Rule on Air Quality for Transportation Plans, Programs, and Projects require the Yakima Valley Conference of Governments, as the MPO, and the U.S. Department of Transportation to determine that the 2016-2040 M/RTP and the 2020-2023 M/RTIP conform to the Washington State Implementation Plan for Air Quality, hereafter referred to as the State Implementation Plan (SIP), and support the SIP intent to achieve and maintain the National Ambient Air Quality Standards; and

WHEREAS, The Federal Clean Air Act Amendments of 1990 and the Rule on Air Quality also require that the goals, policies, programs and projects embodied in the 2020-2023 M/RTIP not contradict or adversely impact implementation of transportation control measures identified in the State Implementation Plan (SIP) for the Yakima nonattainment area; and

WHEREAS, the Yakima Valley Metropolitan Area is in conformity for CO and PM₁₀; and

WHEREAS, the 2020-2023 Yakima Valley Metropolitan Transportation Improvement Program (MTIP) has been determined to achieve and maintain the NAAQS as required by the Clean Air Act Amendments of 1990, and to meet the requirements set forth in WAC 173-420, and the Yakima Limited Maintenance Plans for both CO and PM₁₀

NOW, THEREFORE, BE IT RESOLVED, the Yakima Valley Transportation Policy Board finding the quantitative analysis of transportation-related PM₁₀ emissions for the 2020-2023 Metropolitan and Regional Transportation Improvement Programs (M/RTIP) modeled scenarios do not cause any violations of

the National Ambient Air Quality Standards (NAAQS), declares that the 2020-2023 MTIP meets the requirements of both state and federal air quality conformity rules (WAC 173-420 and 40 USC part 51 respectively) for PM₁₀, and is in conformity with the Clean Air Act Amendments of 1990, Interim Phase II - Conformity Guidelines for PM₁₀ and 40 CFR Part 41.

Adopted by the Yakima Valley Transportation Policy Board this 21st day of October 2019.

Vames A. Restucci, Chair

Yakima Valley Transportation Policy Board

ATTEST:

Christina Wickenhagen

Executive Director

Yakima Valley Conference of Governments

Resolution No. 2019 - 16

Adoption of THE 2020-2023 YAKIMA VALLEY METROPOLITAN AND REGIONAL TRANSPORTATION IMPROVEMENT PROGRAMS

WHEREAS, the Yakima Valley Conference of Governments (YVCOG), as the federal-designated Metropolitan Planning Organization (MPO) and state-designated Regional Transportation Planning Organization (RTPO), has the responsibility for developing and adopting a Transportation Improvement Program (TIP) for each organization: and,

WHEREAS, local jurisdictions and state agencies have submitted projects for inclusion in the 2020-2023 Metropolitan and Regional Transportation Improvement Program (M/RTIP), which are based on reasonably available financial resources; and,

WHEREAS, transportation improvement projects must be included in the M/RTIP to be eligible for federal assistance under Federal Transit Administration and Federal Highway Administration funding programs; and,

WHEREAS, a public comment period for review of the proposed 2020-2023 M/RTIP was held between September 10, 2019 and October 9, 2019; and,

WHEREAS, Yakima Valley Conference of Governments certifies that the requirements of 23 USC, Section 134 are met. Certification is a joint MPO/WSDOT statement concerning the planning process and is updated every year; and,

WHEREAS, the 2016-2040 M/RTP was adopted on March 21, 2016 and requires the M/RTIP to reference the new M/RTP; and,

WHEREAS, the Policy Board of the Yakima Valley MPO/RTPO, in its review of the 2020-2023 Metropolitan and Regional Transportation Improvement Programs (M/RTIP) on October 21, 2019 finds:

- 1. The projects contained in the 2020-2023 M/RTIP to be a realistic program of projects to be implemented by local jurisdictions, transit agencies and the state Department of Transportation;
- 2. The 2020-2023 M/RTIP to be financially constrained;
- 3. The development of the 2020-2023 M/RTIP to have involved public input;
- 4. The projects contained in the 2020-2023 M/RTIP to be consistent with regional goals, policies and recommendations as set forth in the 2016-2040 Yakima Valley Metropolitan and Regional Transportation Plan; and
- 5. The 2020-2023 M/RTIP meets air quality conformity as referenced in Yakima Valley Conference of Governments *Resolution 2019-15*.

NOW, THEREFORE, BE IT RESOLVED, that the Yakima Valley MPO/RTPO Policy Board adopts the 2020-2023 Yakima Valley Metropolitan and Regional Transportation Improvement Programs (M/RTIP); and

- 1. Acknowledges and accepts them for the purposes of planning and information; and
- 2. Approves the projects listed in the 2020-2023 MTIP/RTIP to receive federal funds.

BE IT FURTHER RESOLVED, that the Yakima Valley 2020-2023 Metropolitan and Regional Transportation Improvement Programs be transmitted to the appropriate state and federal agencies to continue inclusion in the STIP after October 21, 2019.

Signed this 21st day of October 2019.

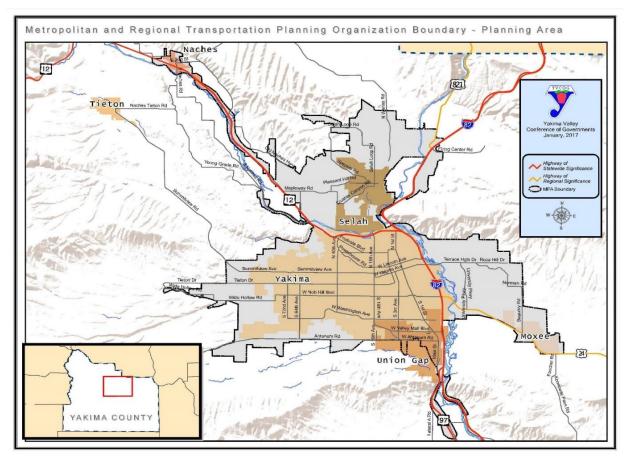

James A. Restucci, Chair

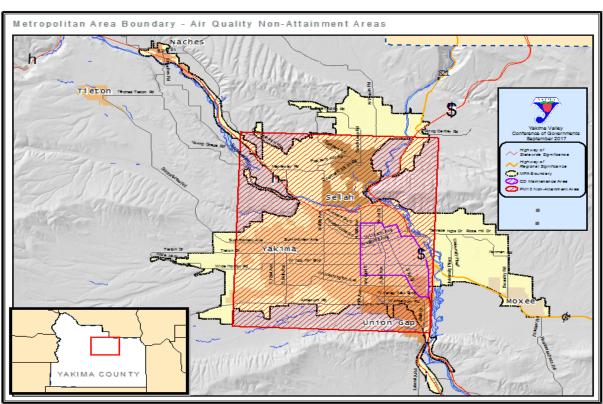

Yakima Valley MPO/RTPO Policy Board

ATTEST:

Christina Wickenhagen, Executive Director

Yakima Valley Conference of Governments

OVERVIEW & SUMMARY

The Yakima Valley Metropolitan and Regional Transportation Improvement Program (MTIP/RTIP) is a four-year programming document derived from the more comprehensive six-year Transportation Improvement Program developed and adopted annually by local agencies. Each year the Yakima Valley Conference of Governments (YVCOG) prepares this document in cooperation with local jurisdictions and the Washington State Department of Transportation (WSDOT). The MTIP/RTIP is required to:

- Identify urban and rural projects from locally adopted TIPs that are ready for implementation in 2019 -2022 for which federal funding has been secured, are WSDOT projects, or are regionally significant regardless of the funding source;
- Demonstrate that projects programmed during 2020 -2023 will not cause or contribute to any new violation of federal air quality standards for carbon monoxide (CO), or particulate matter of 10 micrometers in diameter or less (PM₁₀);
- Demonstrate financial constraint; and
- Demonstrate consistency with RCW 36.70A, Section 70 of the Washington State *Growth Management Act* requiring transportation planning be coordinated and consistent with local comprehensive plans.

The 2020 - 2023 M/RTIP has met all the above requirements and has been prepared and submitted in conformance with the regulations and guidelines issued by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). The table below shows a summary of the 2020 - 2023 Metropolitan and Regional Transportation Improvement Program.

Table 1. 2020 -2023 MTIP/RTIP Summary

| Secured Funding Projects | | | | |
|--------------------------|----------|---------------|----------------------------|--------------|
| | Projects | Federal Funds | State/Local Funds | TOTAL |
| МРО | 19 | \$14,126,140 | \$22,775,000 / \$1,181,815 | \$38,082,955 |
| RTPO | 21 | \$27,979,936 | \$15,555,720 / \$1,283,126 | \$44,818,782 |
| TOTAL PROJECTS | 40 | | TOTAL FUNDING | \$82,901,737 |

BACKGROUND

The Yakima Valley Conference of Governments (YVCOG) is an intergovernmental organization composed of local jurisdictions within Yakima County. The YVCOG was established over 50 years ago to coordinate on regional issues, including transportation. The YVCOG is the lead planning agency for both the Metropolitan Planning Organization (MPO) and the Regional Transportation Planning Organization (RTPO) on behalf of its members. The existing YVCOG structure was formed under RCW 47.80.20, which authorized creation of regional planning councils.

The principal mission of the YVCOG is to serve our member jurisdictions by providing a forum for the exchange of information and data on a regional basis. To accomplish this mission, YVCOG provides local jurisdictions with technical support and coordination in transportation planning and information services.

METROPOLITAN PLANNING AREA AND DESCRIPTION

The Yakima Valley Metropolitan Planning Organization was formed on May 1, 1974 for the Greater Yakima-Selah-Union Gap urbanized area. Members of the MPO include the cities of Selah, Moxee, Union Gap, Yakima, and the surrounding unincorporated urbanized areas of Yakima County.

Federal regulations require MPOs to develop coordinated transportation plans and programs to ensure consistency and efficient use of federal transportation funds. Maps identifying the RTPO, MPO, and PM₁₀ and CO Maintenance Area boundaries are found preceding page 1.

REGIONAL PLANNING AREA AND DESCRIPTION

The YVCOG was also designated as the lead agency for the Yakima Valley RTPO on March 16, 1993 under the Washington State Growth Management Act (GMA). The RTPO encompasses all of Yakima County. The RTPO was developed to comply with RCW 36.70A the Growth Management Act (GMA), and RCW 47.80.20 which authorized creation of regional transportation planning organizations formed through a voluntary association of local governments.

M/RTIP PURPOSE AND SCOPE

YVCOG is required by federal and state regulations to develop a Transportation Improvement Program (TIP) for its Metropolitan and Regional Transportation Planning Organizations which spans a four-year period and is updated annually. The combined M/RTIP functions as a financial plan that identifies and prioritizes regionally significant transportation projects using federal funds.

The M/RTIP also aids in the coordination and cooperation of transportation planning in the region. The M/RTIP provides the public, elected officials, state and local staffs, transit providers, and other interested parties the opportunity to review regional projects for consistency with regional and local plans, goals and policies.

The M/RTIP requires approval by the YVCOG Transportation Policy Board, the Federal Highway Administration (FHWA), the Federal Transit Administration (FTA), the Washington State Department of Ecology (DOE), the Washington State Department of Transportation (WSDOT), and the Governor's Office. Approved regional TIPs are then included in the Statewide Transportation Improvement Program (STIP). WSDOT is responsible for the statewide coordination of the STIP. Once local agency projects are programmed, WSDOT manages the local portion of the federal highway funds on a first-come, first-served basis. Following federal approval of the STIP, local jurisdictions may begin obligating federal funds for their projects. The regional procedures allow any federal project included in the STIP to be advanced or delayed without a STIP amendment contingent upon the financial balance being maintained for each fiscal year.

MTIP/RTIP LEGISLATIVE REQUIREMENTS

The Yakima Valley M/RTIP is developed in response to two pieces of legislation:

- Fixing America's Surface Transportation System Act (FAST Act).
- ESHB 2929, the Washington State Growth Management Act (GMA), as amended, and HB 1928.

FAST Act requires Metropolitan Planning Organizations to prepare a MTIP detailing those projects within the metropolitan area boundary that are regionally significant and to be completed with federal transportation funds. The Washington State Growth Management Act requires Regional Transportation Planning Organizations to prepare a RTIP in cooperation with WSDOT detailing all projects within the RTPO that are regionally significant and to be completed with federal transportation funds. WSDOT coordinates the statewide STIP development with YVCOG to ensure consistency with regional plans and goals. Metropolitan projects are listed separately from non-metropolitan (those outside the recognized metropolitan area boundary).

FAST Act requires the MTIP to cover a four-year period and be updated at least once every four years (450 CFR 324). The Yakima Valley M/RTIP complies with this requirement by focusing on the first four years of the traditional six-year TIP project lists submitted by local jurisdictions. Projects that have funding secured and appear within the first four years require demonstration of fiscal constraint. That is, projects must identify reasonably available, secured funding sources.

Appendix C - MPO Federally Funded Projects, lists the metropolitan area projects; Appendix D - RTPO Federally Funded Projects, lists the projects outside the MPO boundary.

MTIP/RTIP DEVELOPMENT PROCESS

The metropolitan planning requirements of FAST Act enhance the role of the MPO in developing the MTIP. In response to this, the YVCOG, on behalf of member jurisdictions, uses a continuous, comprehensive, and cooperative planning process with jurisdictions and agencies in the development of the Metropolitan and Regional Transportation Plan (MTP/RTP) and the Metropolitan and Regional TIPs.

The Yakima Valley Conference of Governments customarily initiates the development of the M/RTIP in July of each year when local jurisdictions and agencies submit copies of their adopted TIPs to YVCOG.

Local TIP submissions are entered into the online WSDOT STIP software and compiled into a comprehensive document for the metropolitan and regional areas of Yakima County. Review and refinement occur continuously throughout the process to arrive at a program of improvements that is both consistent with the regional transportation plan and financially feasible. Steps in the development of the M/RTIP include:

- Preparation and submission of local six-year programs to YVCOG via the online WSDOT STIP software, and
- Project review by YVCOG ensuring that:
 - 1. All projects scheduled for federal funding are included in the TIP,
 - 2. All projects are fiscally constrained by showing a four-year implementation schedule and funding source by program,
 - 3. The MTIP/RTIP was developed as a result of interagency consultation,
 - 4. The public and interested parties were afforded a reasonable opportunity to comment on the MTIP/RTIP,
 - 5. The MTIP/RTIP exhibits consistency with the *Yakima Valley Metropolitan and Regional Transportation Plan 2016-2040*,
 - 6. The MTIP/RTIP is financially constrained,
 - 7. The MTIP is in conformity with federal air quality standards,
 - 8. Opportunities for developing an intermodal transportation system are provided, and
 - 9. All projects in the M/RTIP are consistent with *Title VI* of the Civil Rights Act.

The DRAFT 2020-2023 MTIP/RTIP was available for public comment from September 10, 2019 through October 9, 2019. The 2020-2023 MTIP/RTIP was considered by the YVCOG MPO/RTPO Executive Committee at the October 21, 2019 meeting with the intention to adopt the M/RTIP by resolution. The M/RTIP was then submitted to the Washington State Department of Transportation (WSDOT) for interagency review and the Governor's approval for inclusion in the STIP.

The approved STIP was then submitted to the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) for federal approval. After the STIP is approved by the FHWA and FTA the local jurisdictions and agencies may proceed with obligating project funds through local agency agreements with WSDOT.

Table 2. 2020-2023 MTIP/RTIP Development Schedule

| Date | Activity |
|---------------------------|---|
| LOCALS | |
| June 30 | City and Transit TIPs to be approved by elected official (RCW 35.77.010). |
| July | Local agency and WSDOT submits projects for inclusion in the STIP to YVCOG. YVCOG office will retrieve. |
| July 29 | Adopted TIPs due to WSDOT Highways & Local Programs (via online STIP or mail). |
| YVCOG | |
| Aug-Sept | YVCOG assembles M/RTIP and prepares analysis for conformity finding. |
| September 10 | Beginning of Public Review period for DRAFT M/RTIP. |
| October 9 | End of 30+day Public Review period for DRAFT M/RTIP. |
| October 10 | Recommendation from TAC for approval by MPO/RTPO Executive Committee. |
| October 21 | MPO/RTPO Executive Committee Review/Approval of Final Draft 2020-2023 M/RTIP. |
| October 19 | 2020-2023 Yakima Valley M/RTIP forwarded to WSDOT Headquarters for inclusion into the STIP. |
| <u>WSDOT</u> | |
| Nov/Dec 2018 | "Draft" STIP available for public review. WSDOT approves MTIP. |
| December 2018 FHWA/FTA | WSDOT submits the STIP to FHWA and FTA for approval. |
| January 2019 | FHWA and FTA approves the STIP. |
| | |

PUBLIC INVOLVEMENT

Citizens and interested parties have been provided early and reasonable opportunity to comment on the proposed TIP as required under Section 20005 (J) (1) (B). Public review for the Draft 2020 -2023 MTIP/RTIP was held from September 10, 2019 through October 19, 2019. Public notices announcing the review period were published in English in two local papers of record - the *Yakima Herald Republic* and the *Sunnyside Daily Sun News* and in Spanish in a local paper of record – *El Sol.* A copy of the Draft 2020-2023 MTIP/RTIP was available for public viewing at several physical sites in Yakima County as well as electronically on the YVCOG website at www.yvcog.org. Public comments received during the public review period will be recorded and be part of the Final Draft.

In addition to the TIP process included in the YVCOG public participation process (PPP), each jurisdiction and agency submitting projects for the Yakima Valley 2020 - 2023 M/RTIP conducted their own public review and hearing opportunities when they adopted their local TIPs.

This MTIP development process satisfies the City of Yakima's POP public participation requirements for Yakima Transit.

MTIP/RTIP CONSISTENCY

Section 53 of Washington State's Growth Management Act (GMA) states that the transportation system should "function as an interconnected and coordinated system" and that "transportation planning should be coordinated with local comprehensive plans." RTPOs are required to certify that the transportation elements of each local jurisdiction's GMA comprehensive plans are consistent with the regional transportation plan, and the Washington State Transportation Plan.

FINDINGS AND STATEMENT OF PROGRAM/PLAN CONSISTENCY

All projects in the 2020-2023 M/RTIP have been reviewed and found to be consistent with the goals and objectives in local GMA comprehensive plans, the *Yakima Valley Metropolitan and Regional Transportation Plan 2016-2040*, the Growth Management Act, and the Washington State Transportation Plan. These transportation-planning goals are supported by each project in the 2020-2023 MTIP/RTIP.

MTIP/RTIP FINANCIAL CONSTRAINT

The Yakima Valley M/RTIP covers four project years from 2020 through 2023.

All federally funded projects within the MPO boundary and in the RTPO region have been included in the M/RTIP. M/RTIP projects have been prioritized by year: projects to be obligated in 2020 are priority one; priority two projects will be obligated in 2021, priority three projects will be obligated in 2022 and priority four projects will be obligated in 2023. Carryover projects from 2019 are included with the 2020 priority one project list found in Appendix A titled "Financial Constraint".

FINANCIAL CONSTRAINT AND YEAR OF EXPENDITURE

The Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) issued a Metropolitan Planning Rule that affects fiscal constraint determinations for MTIPs. 23 CFR 450.324 states:

"Starting December 11, 2007, revenue and cost estimates for the TIP must use an inflation rate(s) to reflect 'year of expenditure dollars,' based on reasonable financial principles and information, developed cooperatively by the MPO, State(s), and public transportation operator(s)."

Through consultations with FHWA and FTA, the Yakima Valley MPO determined it will use a 4 percent annual inflation rate for project costs occurring in 2013 and beyond. The 4 percent rate is an approximate average of different inflation rates used for different phases of a project to reflect differences in cost escalation. The "preliminary engineering" and "right-of-way" phases use a 3 percent rate while the "construction" phase uses a 6 percent rate. A 4 percent annual inflation rate matches the rate used in the *Yakima Valley Metropolitan and Regional Transportation Plan 2016-2040.* Revenues are projected to grow at a slower rate than project costs; this will result in a more conservative fiscal analysis and list of projects included in the MTIP.

Agencies submitting TIPs to YVCOG were responsible for implementing year of expenditure revenues and costs; YVCOG did not alter TIP project numbers after they were received.

FINDINGS AND STATEMENT OF FINANCIAL CONSTRAINT

A comprehensive assessment of the revenue available to WSDOT and local agencies was completed for the *Yakima Valley Metropolitan and Regional Transportation Plan 2016-2040.* Comparing the revenue

available to the project costs included in the 2020-2023 MTIP/RTIP displayed in Table 1 enables a consistent basis for fiscal constraint.

Baseline funding projections are those revenues considered "most likely," and are conservative estimates based on recent historical revenue trends and the current context of each revenue source. Potential funds include additional revenues that may be made available in the context of the jurisdictions current set of funding policies. However, only regionally significant projects which have verifiably secured funding can be included in the STIP.

As a policy, the Yakima Valley Metropolitan and Regional Transportation Organization includes project which are planned but have not yet secured funding in our annual M/RTIP development process. This process allows for more meaningful public input to illustrate what additional projects can be completed when funds become available regardless of funding source. The intent is to help streamline the TIP/STIP amendment process when additional funding becomes available and speed the delivery of ready-to-go projects. Planned projects are not included in fiscal constraint analysis.

PROJECT FUNDING SOURCES

The 2020 - 2023 M/RTIP is funded from a variety of federal sources. Several of the major sources from which funds are programmed are listed in *Table 3*. Not all state and local funds have to be programmed in the M/RTIP. However, if these funds are used to match federal dollars described below, or if they are used for projects that require federal approval or other formal federal action, they must be included in the MTIP/RTIP. Such federal, state and local fund sources can include the following:

The state share of the Surface Transportation Program (STP), National Highway System (NHS), and Interstate Maintenance (IM) funds, among others.

Table 3. Funding Sources

| _ | Tubic 51 Tunung Sources | | | |
|---|--|---|--|--|
| | Federal Highway Administration (FHWA) Programs | Federal Transit Administration (FTA) Programs | | |
| | Surface Transportation Block Grant (STBG) Congestion Mitigation and Air Quality Improvement Program (CMAQ) funds STBG Set Aside (Previously TAP) SAFETEA-LU DEMO projects (selected) Interstate Construction (IC) Federal Emergency Relief (ER) Program Highway Bridge Replacement and Rehabilitation (HBRR) Program Hazard Elimination Safety (HES) Program Railroad/Highway Grade Crossing Program | Urbanized Area Formula Program operating and capital funds (FTA Section 5307) Urbanized Area Capital Program Fixed Guideway funds (FTA Section 5309 - Fixed Guideway) Capital Program Discretionary Bus funds (FTA Section 5309 - Bus) Capital Program New Starts funds (FTA Section 5309 - New Starts) Non-urbanized Area Formula Program (FTA Section 5311) Elderly and Persons with Disabilities Program (FTA Section 5310) | | |

One major source of funding for the local projects in the TIP is the federal Surface Transportation Block Grant (STBG-previously STP). In 2007, an updated process for prioritizing and selecting regional projects for STP (now STBG) funds was approved by the Yakima Valley Transportation Policy Board. This competitive process replaced a formula distribution process previously in place. Projects selected must be consistent with the transportation policies in the Washington State Transportation Plan and the Yakima Valley Metropolitan and Regional Transportation Plan 2016-2040.

In 2013, the Yakima Valley MPO/RTPO issued a call for projects, funding 13 jurisdictions Preliminary Engineering (PE) phase projects. Subsequent Right of Way (RW) and Construction (CN) of those projects have been funded with annual STP-G annual distribution funds, continuing until all 13-awarded project complete construction (projected in 2025). The most recent STP call for projects was issued in 2013.

TITLE VI ASSURANCES

On behalf of its member jurisdictions and agencies, the YVCOG certifies that in accordance with 23 CFR 450.334, the Yakima Valley metropolitan planning process is addressing the major issues in the metropolitan planning area and is being conducted in accordance with all applicable requirements of:

- 1. Section 134 of Title 3, USC, Sections 5303-5305 and 5323(k) of Title 49, 23 CFR Part 450 and 49 CFR Part 613;
- 2. *Title VI* of the Civil Rights Act of 1964 and the Title VI assurance executed under *23 USC 324* (Prohibition of discrimination on the basis of sex) and *29 USC 794* (*disabilities*);
- 3. Section 1101(b) of the Transportation Equity Act for the 21st Century (Pub. L. 105-178) regarding the involvement of disadvantaged business enterprises in the FHWA and the FTA funded project (Sec. 105 (f), Pub. L. 97-424, 96 Stat. 2100, 49 CFR part 23);
- 4. The provisions of the Americans with Disabilities Act of 1990 (*Pub. L. 101-336, 104 Stat. 327*, as amended) and the U.S. DOT regulations, Transportation for Individuals with Disabilities (*49 CFR Part 27, 37*, and *38*);
- 5. The provisions of *49 CFR part 20* regarding lobbying restrictions on influencing certain Federal activities;
- 6. The provisions of 49 CFR part 29, subparts A through E, in not using FHWA funds for procurements from persons who have been debarred or suspended; and
- 7. Sections 174 and 176(c) and (d) of the Clean Air Act as amended (42 USC 7504, 7506(c) and (d) if applicable).

INTERMODAL/MULTIMODAL PROVISIONS

Projects listed in the 2020-2023 M/RTIP provide consideration for alternative transportation modes to the extent possible in order to address multimodal needs.

NHS FACILITY CERTIFICATION

Agencies with National Highway System (NHS) routes in the Yakima Valley are responsible for maintaining those routes. Because of their national and strategic significance, NHS routes are deemed to be of greater importance than non-NHS routes. YVCOG certifies that NHS routes have been given priority by agencies in their six-year programming process.

CONGESTION MANAGEMENT

Yakima Valley is not a Transportation Management Area (TMA), thus provisions of FAST Act for TMA planning requirements are not applicable to the Yakima Valley Metropolitan or Regional Transportation Planning Area.

MTIP AMENDMENT PROCESS

A local jurisdiction or agency may submit a request for a TIP Amendment according to the YVCOG TIP Amendment Policy adopted in May 1994. The request will include a project description, cost and implementation schedule. The project will undergo the same review process as described above in the initial MTIP submission process. The WSDOT, FHWA, and FTA are continuing to provide updated guidance on which changes to a project trigger an administrative modification or formal amendment. Consultation with WSDOT is done on an as-needed basis to use the most appropriate method during that particular amendment cycle.

The TIP amendment process will not supersede local agency relationships with State or Federal agencies. The local agency will continue to be required to administer their own authorizations, agreements and grant funds.

2020 STIP Amendment Due Dates

The STIP amendment schedule provides consistency for WSDOT regions and MPOs to submit projects for inclusion into the STIP. Local agencies and regional WSDOT Program Management personnel need to be aware of MPO timelines where applicable and work together to meet critical dates.

| <u>Month</u> | Due Date (Projected) |
|--------------|----------------------|
| January | 1/17/20 |
| February | 2/21/20 |
| March | 3/20/20 |
| April | 4/17/20 |
| May | 5/15/20 |
| June | 6/19/20 |
| July | 7/17/20 |
| August | 8/21/20 |
| September | 9/18/20 |
| October | 10/16/20 |

It is critical that all submittals are forwarded to Nancy Huntley (huntlen@wsdot.wa.gov) no later than the due date identified in the chart above, to be included in the monthly amendment process. Rural project information may be submitted directly to Nancy Huntley as well based on an agreed upon process with the affected RTPO.

MTIP PROJECTS

The **2020-2023** M/RTIP project lists are found in Appendix [B] *MPO Funded Projects* and Appendix [C] *RTPO Funded Projects*. Both sections list projects within the metropolitan (MPO) or outside the metropolitan (RTPO) area between 2020 and 2023 with: secured federal funding, with any type of funding provided the project is regionally significant, or if the project is a WSDOT project.

FINANCIAL CONSTRAINT

The M/RTIP focuses on the first four years of traditional six-year project lists and requires fiscal constraint. Projects prioritized in the first four years of the local jurisdictions' TIPs are required to show reasonably available federal funding sources.

PROJECT SHEET KEYS

Starting on the next page are tables showing the coding used on both the local six-year TIPs and STIP project reporting sheets found in the Appendices.

MAP-21 / FAST-Act Performance Measurement Targets & Concurrences

In 2017, WSDOT and the state's MPO/RTPOs began a collaborative process to develop various performance measures on a statewide and local level to better gauge local and state impacts and benefits of the region's transportation network which have received federal funding through 2012's *Moving Ahead for Progress in the 21st Century* Act (MAP-21) and the 2015's *Fixing America's Surface Transportation* (FAST) Act.

The new transportation rules require WSDOT, in coordination with local MPO/RTPO's to measure and report performance in the following areas: safety, pavement and bridge, system performance/congestion, freight movement, and congestion mitigation and air quality (CMAQ).

Safety

Yakima Valley Conference of Government adopted WSDOT's recommended initial 2018 Safety Performance Targets in February 2018 followed by WSDOT's 2019 recommended targets in February 2019, to "reduce the number of traffic fatalities and serious injuries on Yakima Metropolitan Area roadways to zero by 2030". These targets will be updated annually, based on traffic accident data each year by WSDOT and the Washington State Patrol.

Table 10. Safety Performance Measures (Adopted by YVCOG Policy Board February 20, 2019)

| | Safety Performance Measure for 2019 (YVCOG MPO) | 2016 Baseline | 2018 Target | Adopted |
|---|--|------------------|----------------|----------|
| 1 | # of Fatalities on All Public Roads | 6.4 | 8.2 | Feb 2019 |
| 2 | # of Fatalities per 100 Million Vehicle Miles Traveled on All Public Roads | 0.752 | 0.884 | Feb 2019 |
| 3 | # of Serious Injuries on All Public Roads | 32.4 | 29.9 | Feb 2019 |
| 4 | # of Serious Injuries / 100 Million Vehicle Miles Traveled on All Public Roads | 3.855 | 3.314 | Feb 2019 |
| 5 | # of Non-Motorist Fatalities and Serious Injuries on All Public Roads | 9.6 | 8.6 | Feb 2019 |

| TABLE 10-a: Safety Performance Measures Inspired Projects 2020 -2025 | | | | | |
|--|---|--|-------------------------|---------------|--|

| | Yakima | North 1 st Street Revitalization (Ph-2 – H St. to N St.) | Improve N. 1 st by rehabilitating the pavement, remove on street parking, install bike lanes, replacing & widening sidewalks and enhanced illumination. Install pedestrian lighting, median islands, and various pedestrian elements | 2020 (BUILD) | MF |
| | Yakima | North 1 st Street Revitalization (Ph-3 – MLK Blvd to H St.) | Improve N. 1 st by rehabilitating the pavement, remove on street parking, install bike lanes, replacing & widening sidewalks and enhanced illumination. Install pedestrian lighting, median islands, and various pedestrian elements | 2021 (BUILD) | MF |
| | Yakima | Powerhouse Road Bike Lanes and Sidewalk | Construct 5-ft bike lanes and sidewalks on east side of Powerhouse Rd. and crosswalk at Cowiche Canyon Rd. | 2022 (State Bike/Ped) | MF |
| | Yakima | South 16 th Avenue Sidewalks | Install 7-foot sidewalk on west side of 16 th Avenue. | 2022 (State Bike/Ped) | MF |
| | Yakima | McKinley Elementary School Safety Improvements | Replacing dilapidated sidewalk, construct ADA ramps and install HAWK pedestrian crossing system | 2022 (SRTS) | MF |
| | Yakima | SR 12 & 16 th Avenue Interchange | Construct roundabout at SR 12 westbound ramps and N. 16 th Avenue | 2022 (STP-us) | MF |
| | Yakima | Tieton Drive & S. 5 th Avenue Intersection Improvements | Remove existing traffic signal and install a roundabout. Replace sidewalk and lighting | 2023 (STP-us) | MF |

| Yakima | W. Lincoln Avenue & Martin Luther King Boulevard Realignment | Realign W. Lincoln Ave, install sidewalk and illumination | 2023 (STP-us) | MPO |
|-----------------|---|--|--------------------|------|
| Yakima | Powerhouse Road & Englewood Avenue Intersection | Realign intersection, install sidewalk, safety flashing signal. Roundabout considered for construction | 2023 (STP-us) | MPO |
| Yakima | Nob Hill Boulevard Sidewalk Improvements | Construct sidewalks in "missing link" sections of roadway | 2024 (STP-us) | MPO |
| * Yakima Co. | Ahtanum Road – S. 52 nd Avenue (vic.) to S. 90 th Avenue (vic.) | Reconstruct 2-lane to 3-lanes w/ pedestrian and bicycle facilities | PE-2020 (Local) | MPO |
| * Yakima Co. | Donald-Wapato Road – Bridge #395 (vic.) to Wapato City Limits | Widen & pave shoulders, spot safety improvements and 2-R structural overlay | PE-2021 (Local) | RTPO |

Pavement and Bridges

RCW 47.05 and the Washington State Department of Transportation's (WSDOT's) Highway System Plan set the direction for management of infrastructure condition in Washington State, which is to preserve pavements and bridges at lowest life cycle cost. The lowest life cycle strategy for any pavement or bridge is the strategy that maintains acceptable condition at the lowest annualized cost over the life of the asset. WSDOT has demonstrated this by taking a preservation first approach to pavement and bridge management over several decades.

Local agencies manage approximately 31% of the non-Interstate National Highway System (NHS) in Washington State. Using the <u>Target Setting Framework</u>, WSDOT worked with Metropolitan Planning Organizations (MPOs) to establish performance measures and communicate its pavement and bridge management practices, as well as what these practices mean in the context of the National Highway System (NHS). WSDOT has also communicated the annual average state facility needs for pavements and bridges within each MPO boundary. Further supporting asset performance and investments on the NHS, WSDOT Local Programs issued a call for projects specifically focused on asset management practices, for pavements on NHS roadways.

Washington MPOs & WSDOT have agreed to plan and program projects to work towards and achieve Washington pavement and bridge condition targets for infrastructure condition under 23 CFR 490. As required under 23 CFR 515, the specific strategies for pavement and bridge preservation are documented in WSDOT's <u>Transportation Asset Management Plan</u>, certified by FHWA in May 2018.

System Performance, Freight, and CMAQ

In 2018, Washington State Metropolitan Planning Organizations (MPOs) and the Washington State Department of Transportation (WSDOT) set, adopted, and reported to FHWA statewide targets for the Highway System Performance, Freight, and Congestion Mitigation and Emissions performance measures. Washington State MPOs and WSDOT are working to improve the planning and programming process to more fully align funding decisions with performance targets.

In Washington State, many of the projects selected to address mobility are prioritized through the legislative process. For this reason, it is essential that WSDOT, MPOs, regional transportation planning organizations (RTPOs), and local agencies coordinate their transportation planning efforts to develop transportation priorities that contribute towards performance targets and can be shared with lawmakers.

One such way WSDOT and its partner MPOs and RTPOs are working to make performance-supporting projects and programs clear to the legislature is through the Plan Alignment Work Group. A major focus of the group is to increase the consistency between regional plans and WSDOT's statewide plans, which includes sharing and collaboratively perfecting the data and information necessary to identify a comprehensive list of financial forecasts, maintenance needs, and project priorities related to the state system within MPOs and RTPOs.

Another way WSDOT and its partners are assessing performance and target achievement is through the Regional Integrated Transportation Information System (RITIS) data tool. The state's financial participation makes this tool available for WSDOT and MPOs to use the system in evaluating regional targets and to assist in other decision-making processes.

To guide freight investments and improve freight system performance in Washington, WSDOT developed the 2017 Washington State Freight Investment Plan by engaging various freight partners and stakeholders, including MPOs and RTPOs. The Freight Investment Plan identified freight priority projects and described how those priorities would be invested and funded through FFY 2016–2020 National Highway Freight Program (NHFP) funds. Those NHFP investments would be incorporated into STIP and TIPs contributing to improving statewide freight performance on National Highway Freight Network.

Over the coming years WSDOT and its partners will further align planning and programming with performance. All are committed to developing practical approaches to work towards our regional and statewide performance targets.

In May 2018, WSDOT and the state MPO/RTPO's finalized their collaboration on the remaining target areas for review and concurrence by the planning organizations by November 1, 2018. YVCOG presented the WSDOT recommended targets of the remaining measures to its policy board over the summer of 2018. Except for YVCOG's Congestion Mitigation and Air Quality (CMAQ) targets, which are local targets, and based on a 2016 CMAQ call for projects and an annual award of funding between 2017 and 2020, all other performance measure targets a "statewide".

MTIP & AIR QUALITY CONFORMITY

INTRODUCTION

Air quality planning for transportation is focused on meeting the National Ambient Air Quality Standards (NAAQS) and deadlines set by the federal Environmental Protection Agency (EPA), and upon the state Department of Ecology (DOE) guidelines for meeting the standards. Specific federal and state air quality conformity requirements come from the integration of requirements in the Clean Air Act Amendments of 1990 and the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) and are codified in 40 CFR Part 93.

These requirements were also included in FAST act, and Washington State's Clean Air Act (RCW 70.94 & WAC 173-420-110). The requirements include:

Frequency of Conformity Determinations (40 CFR 93.104)

YVCOG is responsible for completing the metropolitan transportation plan (MTP), and the metropolitan transportation improvement program (MTIP) for the Greater Yakima metropolitan area. Transportation plans and transportation improvement programs must be demonstrated to meet air quality standards at least every four years – or at any time when changes are proposed.

Latest Planning Assumptions (40 CFR 93.110)

Nonattainment and maintenance areas must use the most recent planning assumptions in force at the time of the determination when making their conformity determination.

Interagency Consultation (40 CFR 93.105, 40 CFR 93.112)

Under the approved limited maintenance plans (LMPs) for CO and PM_{10} there are no motor vehicle emissions budgets. Therefore, a regional emissions analysis is not required. The Environmental Protection Agency (EPA) assumes that VMT growth is not expected to create a violation of NAAQS. However, a conformity determination is still required via the interagency consultation process.

Transportation conformity rules require that YVCOG must demonstrate via the interagency consultation process that the projects included in the transportation plan and the transportation improvement program successfully demonstrate that either singly or taken together, they will not cause the region's air quality to deteriorate nor will they cause or contribute to any new violation of the federal air quality standards for CO or PM_{10} .

Public Review and Comment (FAST act)

A public comment period must be provided prior to taking formal action and reasonable access to technical and policy information must be provided at the beginning of the public comment period.

YAKIMA VALLEY MTIP AND AIR QUALITY CONFORMITY — CO and PM₁₀ DISCUSSION

The Environmental Protection Agency (EPA) re-designated both the Yakima carbon monoxide (CO) nonattainment area and the PM_{10} nonattainment area to "attainment" for the National Ambient Air Quality Standards (NAAQS) and approved a limited maintenance plan (LMP) effective December 31, 2002 for CO and March 10, 2005 for PM_{10} . Additionally, on March 9, 2005 an EPA approved boundary change to the PM_{10} maintenance area to exclude lands belonging to the Yakama Nation went into effect.

Under limited maintenance plans, the motor vehicle emissions may be treated as essentially non-constraining because growth would need to exceed reasonable expectations to create a potential violation of the air quality standards for either PM_{10} or CO. Under the limited maintenance plans, a regional emissions analysis is not required. Please note that even though a regional emissions analysis is not required, there are still other requirements that the area must meet for conformity. Remaining conformity

requirements (as detailed in 40 CFR 93.109) include consultation (40 CFR 93.112), timely implementation of transportation control measures (40 CFR 93.113), and project level analysis (40 CFR 93.116). Individual transportation projects may be required to undergo air quality conformity analysis in order to obtain project approval. Project level analysis is performed by the project sponsor in accordance with state and federal requirements and methodologies. Having attainment status is a recognition that air quality has improved and the probability of future violations of the NAAQS is very low.

Interagency Consultation and Conformity Determination Process

Conformity guidelines do not define how to make conformity determinations for every situation. It is up to each consultation team to arrive at consensus as how to best demonstrate conformity in a particular maintenance area. Because there are no motor vehicle emissions budgets in either the CO or PM_{10} Limited Maintenance Plans (LMPs), the YVCOG, in consultation with WSDOT, FHWA, FTA, EPA, and the DOE, determined that reporting VMTs and annual growth rate is sufficient to demonstrate conformity for the Yakima Valley Metropolitan Transportation Improvement Program (MTIP) was held on October 29, 2019. In order to reach this agreement, several assumptions were made:

- Population growth will follow historical trends,
- Land use changes within the maintenance areas will likewise follow historical trends, and
- The updated metropolitan model describes the most current land use and traffic network data available.

Neither the PM_{10} nor CO LMPs contain transportation conformity emission budgets or maximum VMT growth rates that require regulatory action. This is because the EPA policy for limited maintenance plans does not require out-year emission inventories or transportation conformity budgets for transportation improvement programs.

Working with the DOE in the summer of 2008, YVCOG adopted a common-sense approach in analyzing the ADVMTs that are extracted from the metropolitan area travel demand model. If the growth in ADVMTs is shown to exceed 2 percent per year, further analysis is needed through the interagency consultation process to determine the cause(s) and how to demonstrate conformity. A growth rate higher than 2 percent per year indicates extraordinarily large increases in population, vehicles and traffic, and the air quality impacts of these significant changes need to be studied more closely. The 2 percent annual ADVMT growth rate matches the ADVMT growth assumptions made in the approved PM₁₀ LMP.

Under the current limited maintenance plans, individual transportation projects may be required to undergo air quality conformity analysis in order to obtain project approval. Project level analysis will continue to be performed by the project sponsor in accordance with state and federal requirements and methodologies.

Planning Assumptions

Assumptions about land use, including the location of jobs, housing and the demographic characteristics, are key elements in making the transportation air quality conformity determination. Using 2016 data as a base year and updated VISUM 17.0 land use inputs, the forecast year 2020 was analyzed for the 2020-2023 MTIP.

Public Review

The YVCOG made the air quality conformity determination available at several physical locations from September 10 – October 9, 2019, as part of the MTIP approval process. Public notices announcing the conformity determination are published in English in two local papers of record -- the *Yakima Herald Republic* and the *Sunnyside Daily Sun News* and in Spanish in a local paper of record – *El Sol.* The conformity determination is also available online YVCOG's website at www.yvcoq.org.

YVCOG emailed electronic DRAFT copies of the MTIP document and accompanying air quality conformity determination to those on the interagency consultation and all others requesting it. Additionally, YVCOG staff was available throughout the public comment period to answer questions.

Any comments received on the air quality conformity determination will be recorded. The MPO/RTPO Executive Committee will consider the 2020-2023 air quality conformity determination for adoption prior to submitting to the State Transportation Improvement Program (STIP).

THE METROPOLITAN TRANSPORTATION MODEL UPDATE

In 2018, YVCOG successfully updated its transportation model for purposes of the *DRAFT UPDATE of the Yakima Valley Metropolitan and Regional Transportation Plan 2016-2040.* The model software was updated to VISUM 17.0 with a new base year with updated land use and traffic volumes. The updated model maintains consistency with the previous model as it employs the same underlying assumptions, the same gravity equations, and continues to simulate PM peak hour traffic. The anticipated enhancements include more stratified input data and inclusion of transit systems.

The VISUM platform allows YVCOG to continue to track average daily vehicle miles of travel (ADVMT) based on updated information. This feature is particularly important since through the intergovernmental consultation process with WSDOT, FHWA, FTA, EPA, and the DOE it was determined that reporting ADVMTs and stating their annual growth rate is sufficient to demonstrate conformity for the Yakima Valley MTIP.

Regionally significant projects and projects expected to require federal funding within the four-year TIP (2020-23) period and listed in the *MAP-21 / FAST Act Performance Management Targets & Concurrences* section and viewable from tables 10/10-a through 13/13-a&b.

YVCOG compares MTIP project submittals annually to ensure jurisdictional changes to MTIP projects that may impact the model are analyzed. Additions, removals, or major alterations to regionally significant projects not previously considered or included in the regional model are analyzed for reasonableness (including practicality of completion or jurisdictional commitment) in addition to their impacts to per capita vehicle trips (trip generation), vehicle miles traveled, mode shares and "time of day". These changes are reviewed with the jurisdiction(s) for inclusion in subsequent model updates.

 The ADVMT conformity analysis did not change from the last update of the 2020-2023 MTIP performed last year. The YVCOG finds the following annual ADVMT growth rates in Table 14 below:

Table 14: Percent Annual Growth Rate

| Period | Annual ADVMT Growth Rate |
|-----------|--------------------------|
| 2020-2023 | 1.6% |
| 2020-2040 | 1.3% |

- YVCOG finds that the annual ADVMT growth rates are within the ranges described in the *Yakima PM*₁₀ Nonattainment Area Limited Maintenance Plan and the Yakima CO Nonattainment Area Limited Maintenance Plan.
- Therefore, the YVCOG finds that the projects included in the 2020-2023 MTIP, singly or together, will not cause or contribute to any new violation of the federal air quality standards for CO or PM₁₀.
- In accordance with Fast Act / MAP-21 requirements for reporting performance measures related to Air Quality, tables 12 (targets) and 12-a (planned/secured projects addressing air quality) documents the region's current efforts to mitigate air quality impacts.

STATEMENT OF CONFORMITY

The 2020-2023 Yakima Valley Metropolitan Transportation Improvement Program (MTIP) achieves and maintains the NAAQS as required by the Clean Air Act Amendments of 1990, meets the requirements set forth in WAC 173-420, and the current Yakima limited maintenance plans for both CO and PM_{10} .

Appendix A SELF CERTIFICATION

METROPOLITAN PLANNING ORGANIZATION SELF-CERTIFICATION FOR THE FOLLOWING METROPOLITAN PLANNING AREA

In accordance with 23 CFR Part 450, §450.336, the Washington State Department of Transportation (WSDOT) and the <u>Yakima Valley Transportation Policy Board</u> Metropolitan Planning Organization (MPO) for the <u>Yakima Valley</u> Metropolitan Planning Area (MPA), hereby certify that the metropolitan transportation planning process is being carried out in accordance with all applicable requirements including:

- 1. 23 U.S.C. 134, 49 U.S.C. 5303, and this subpart;
- 2. In nonattainment and maintenance areas, sections 174 and 176 (c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506 (c) and (d)) and 40 CFR part 93;
- 3. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
- 4. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- 5. Section 1101(b) of the FAST Act (Pub. L. 114-357) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in DOT funded projects;
- 6. 23 CFR Part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- 7. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37, 38, and 28 CFR Part 35;
- 8. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- 9. Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and 10. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.
- 11. Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (2 CFR part 200).

Appendix B PUBLIC COMMENTS

Any public comments received during the public comment period for the DRAFT 2020 -2023 M/RTIP will be recorded here.

DRAFT M/RTIP WAS AVAILABLE FOR PUBLIC REVIEW IN THE FOLLOWING LOCATIONS.

- YVCOG OFFICE LOCATED AT 311 N. 4TH STREET, SUITE 204 YAKIMA, WA 98901
- DOWNTOWN YAKIMA REGIONAL LIBRARY: 102 NORTH THIRD STREET, YAKIMA, WA 98901
- YAKIMA REGIONAL LIBRARY-SUNNYSIDE, WA: 621 GRANT AVE. SUNNYSIDE, WA 98944

YVCOG WEBSITE: www.yvcog.org

PUBLIC NOTICES/ANNOUNCEMENTS OF THE PUBLIC REVIEW PERIOD WERE SHARED in/on/with:

- Yakima Herald Republic and Sunnyside's Daily Sun News (Region's local English papers of record)
- El Sol (Region's local Spanish paper of record)
- YVCOG Website
- YVCOG Policy Board [Sept 21], Technical Advisory Committee (TAC) [Sept 12 & Oct 10] and Mobilizing County Access to Countywide Transportation (MPACT) Committee [Sept 25] Meetings
- YVCOG PB, TAC and MPACT Mass mailing lists
- Joint DRYVE and TRANS-Action Transportation Advocacy Committee Meeting [Sept 26]

No public comments were received during the September 10 – October 9, 2019 period for the call for public comments.

| | PE | WSDOT - SC I-82/Yakima to Union Gap - Corridor Improvements Improve access, provide capacity, and replace bridges. I-82 in the Yakima vicinity has become increasingly congested with heavy morning and afternoon rush hour traffic mixing with heavy truck traffic. Retail and commercial development in the greater Yakima area continues to add to freeway traffic. This project will increase capacity on I-82 between the US 12 interchange and the SR 24/Nob Hill Blvd interchange, replacing bridges, and improving on/off connections. This project in conjunction with related City of Yakima and Yakima County system improvements will reduce congestion and the risk of crashes. | | 31.37 | 36.29 | | 4,551,000 | | 4,551,000 |

| | RW | WSDOT - SC I-82/Yakima to Union Gap - Corridor Improvements Improve access, provide capacity, and replace bridges. I-82 in the Yakima vicinity has become increasingly congested with heavy morning and afternoon rush hour traffic mixing with heavy truck traffic. Retail and commercial development in the greater Yakima area continues to add to freeway traffic. This project will increase capacity on I-82 between the US 12 interchange and the SR 24/Nob Hill Blvd interchange, replacing bridges, and improving on/off connections. This project in conjunction with related City of Yakima and Yakima County system improvements will reduce congestion and the risk of crashes. | | 31.37 | 36.29 | | 901,000 | | 901,000 |

| | | 82 | | | | | | | | | | |
| | | 30.78 to 30.84 | | | | | | | | | | |
| | | Repair expansion joints - Bridge 82/114N. The bridge joints on the westbound I-82 Yakima River Bridge just north of Yakima are deteriorating and need to be repaired. This project will replace the existing joints to provide a smoother ride and preserve the structural integrity of the bridge. | | | | | | | | | | |

| | | Improve access, provide capacity, and replace bridges. I-82 in the Yakima vicinity has become increasingly congested with heavy morning and afternoon rush hour traffic mixing with heavy truck traffic. Retail and commercial development in the greater Yakima area continues to add to freeway traffic. This project will increase capacity on I-82 between the US 12 interchange and the SR 24/Nob Hill Blvd interchange, replacing bridges, and improving on/off connections. This project in conjunction with related City of Yakima and Yakima County system improvements will reduce congestion and the risk of crashes. | | | | | | | | | | |

| STP | | | | | | | | |
| | PE | WSDOT - SC SR 410/Rock Creek Vic - Improve Chronic Environmental Deficiency Replace culvert, raise roadway, and realign creek. Currently SR 410 at Rock Creek experiences repeated flooding events and sediment build-up in the culvert, roughly 14 miles west of the US 12/SR 410 Wye. This project will construct a new channel for the creek to provide a larger area for sediment storage and overflow, and construct a new structure on SR 410 to minimize the risk of future flooding events. | | 102.10 | 102.77 | 371,330 | 15,472 | 386,802 |
| | CN | WSDOT - SC 19-21 SCR Region Wide Basic Safety - Signing Replace existing deteriorating signs. This project updates signing at various locations throughout the region to address worn and/or non-reflective signing, and may also update sign posts. This work improves sign visibility for the traveling public. This record is for the Yakima County portion of this region wide project. | 9999847 | Varies | Varies | 220,990 | 4,510 | 225,500 |

| HSIP | | | | | | | | |
| | PE | WSDOT - SC SR 10 Et Al/Kittitas and Yakima Co - Centerline Rumble Strips Install rumble strips. These sections of SR 10, SR 903 and US 12 are two-lane roadways with a high potential for crossover collisions. By installing centerline rumble strips, this project will reduce the risk of this type of collision and improve safety. Shoulder rumble strips may also be considered if warranted. This project is split 50/50 between Kittitas and Yakima counties. | | Varies | Varies | 33,203 | 1,384 | 34,587 |
| | CN | WSDOT - SC US 97/McDonald Rd and Becker Rd - Intersection Improvements Construct roundabout. The McDonald Road / Becker Road intersection on US 97 near Toppenish has experienced a history of collisions. This project will construct a two-lane roundabout for US 97, McDonald Road, and Becker Road. Installing a roundabout will reduce conflicts and the risk of collisions. | 0097171 | 63.57 | 63.77 | 3,102,783 | 63,322 | 3,166,105 |
| | PE | WSDOT - SC US 97/Lateral A Intersection - Intersection Improvements Construct roundabout. WSDOT has identified the US 97/Lateral A intersection with high potential for serious collisions. This will replace the existing three-leg signal with a roundabout and/or other intersection improvements. These improvements will reduce the potential for serious collisions. | 0097175 | 74.40 | 74.66 | 529,222 | 22,051 | 551,273 |

| | | Replace culvert, raise roadway, and realign creek. Currently SR 410 at Rock Creek experiences repeated flooding events and sediment build-up in the culvert, roughly 14 miles west of the US 12/SR 410 Wye. This project will construct a new channel for the creek to provide a larger area for sediment storage and overflow, and construct a new structure on SR 410 to minimize the risk of future flooding events. | | | | | | | | | | |

| | | Construct roundabout. The intersection of Buster Rd and Ward Rd on four-lane US 97 east of Wapato have been identified as a locations with a history of collision proposes to reduce the risk of collisions on US 97 by closing the current access points at Buster Rd and Ward Rd, then creating a new access point by extending Robbins Rd north until it intersects US 97. Installing a double lane roundabout at this new access point and upgrade signing, delineation, barrier, and illumination. This will enhance traffic flow through the local network and provide safe access to US 97 and reduce the risk of collisions. | | | | | | | | | | |
