Metropolitan and Regional Transportation Improvement Program April 2024 Amendments

FINDINGS

TIME FRAME

The Yakima Valley Conference of Governments' (YVCOG) Metropolitan and Regional Transportation Improvement Program (M/RTIP) Amendments for April 2024 includes the years 2024 through 2027.

METROPOLITAN AND REGIONAL PROJECTS

The April 2024 Amendments of the 2024 - 2027 M/RTIP include:

City of Yakima	Fred Meyer Active Transportation Pathway			
Addition	(Formerly "40 th & Fruitvale Boulevard Roundabout"). Construct a roundabout at 40 th Ave &			
STIP ID: WA-15117	Fruitvale Blvd. with rectangular Rapid Flashing Beacons (RRFB), New Marked Crosswalk, Green Pavement/Bicycle Intersection Crossing Markings, ADA Curb Ramps, Audible Pedestrian Signal, Bicycle Wayfinding Signs/Markings, Shared-use Path/Trail. PE/RW/CN Phases [Secured] by \$1,630,904 in state Pedestrian/Bicycle Program funding. Total Project Cost: \$1,630,904.			
	Total Estimated Project Cost:	\$1,630,904		

WSDOT	US 97/SR 22 Intersection - Replace Signal and Illumination			
Addition (PE Phase)	Upgrade illumination system and rebuild signal system. The electrical lighting system and			
STIP ID: 50973N39	signal system at the US 97/SR 22 Intersection on US 97 at Toppenish have deteriorated due			
	to age. Project will replace the lighting system and rebuild the signal to ensure adequate			
	lighting and signal function for the intersection area. PE Phase funded by \$1,116,172 in			
	Federal (secured) NHPP and \$97,058 in state (secured) MVA funds. CN Phase planned for			
	2029. Total Project Cost: \$9,102,035			
	Total Estimated Project Cost	\$9 102 035		

WSDOT	I-82/Elm St Bridge - Deck Rehabilitation			
Addition	Bridge Deck Rehabilitation - Bridge #082/181. The bridge deck of Elm Street over I-82 is			
STIP ID: 508211039	showing signs of fatigue. Repair and resurface the existing bridge deck to maintain the			
	structural integrity, continue safe operation of the interstate, and extend the life of the			
	bridge. PE Phase funded \$124,815 in Federal (secured) NHPP and \$10,854 in state			
(secured) MVA funds. CN Phase scheduled for 2028. Total Project Cost: \$921,149.				
Total Estimated Project Cost: \$921,149				

WSDOT	WSDOT - SR410/1.0 miles E of Chinook Pass Summit - Culvert Lining			
Addition	Install culvert lining and repair erosion. Existing culverts within the project limits are			
STIP ID: 5410002Y39	deteriorating and have erosion issues. This project will install culvert linings and repair			
	erosion to maintain culvert flow and prevent further deterioration and erosion. PE Phase			
	funded by \$245,414 in Federal (secured) STBG and \$10,226 in state (secured) MVA funds.			
	CN Phase funded by \$1,522,097 in Federal (secured) STBG and \$31,063 in state (secured)			
	MVA funds. Total Project Cost: \$1,808,800			
	Total Estimated Project Cost:	\$1,808,800		

\$740,664

	Phase previously included in STIP. Added CN Phase funded by \$610,932 in Federal			
	(secured) NHPP and \$12,468 in state (secured) MVA funds. Total Project Cost: \$740,664			
Total Estimated Project Cost: \$740,664				

PRIORITY OF PROJECTS

The projects in the TIP were selected and prioritized using a process that considered transportation planning, safety, preservation, and increased efficiency of the transportation system. YVCOG supports all aspects of the transportation system including air, roads, public transportation, sidewalks, bike lanes, and travel demand management.

The projects included in the Yakima MPA Region in April 2024 M/RTIP amendments were selected and prioritized in accordance with YVCOG's regionally established transportation goals and policies.

FINANCIAL PLAN

The financial plan, beginning on page 19 of the 2024 - 2027 M/RTIP indicates the TIP can be implemented and the funds programmed do not exceed estimated revenues.

WSDOT will review the April 2024 amendments to the M/RTIP to determine if the M/RTIP amendments are financially constrained. Only SECURED funding amounts are included in the amendment lines in the table below.

Cumulative 2024-2027 M/RTIP Summary - Secured Funding Projects					
	Projects	Federal Funds	State Funds	Local Funds	Total Funds
MPO/RTPO	66	\$80,384,876	\$148,131,665	\$12,652,690	\$241,169,231
April MPO/RTPO Formal Amendment(s)	8	\$8,624,805	\$1,906,168	\$ 0	\$10,530,973
April Administrative Modifications	8 (existing)	\$423,283	\$59,332	\$ 0	\$482,615
Total Projects	74	\$89,432,934	\$150,097,165	\$12,652,690	\$252,182,819

COOPERATION

YVCOG developed the April 2024 amendments to the Greater Yakima Area M/RTIP in cooperation with the WSDOT.

PUBLIC INVOLVEMENT

YVCOG public involvement process is described on page 14 of the 2024 - 2027 M/RTIP. These projects were made available for public review during the jurisdiction's resolution process for Local TIP adoption and approval dates of resolutions are shown in their Six Year Transportation Improvement Program reports. A two-week public comment period for these TIP amendments was made available through the YVCOG website as well as available at the Yakima Regional Library in Yakima. An additional public comment period was made available during the Transportation Policy Board meeting for review/approval of this TIP Amendment process.

Note: In addition to online access, [hard] copies of the M/RTIP Amendment Document are available at the City of Sunnyside (southern county) and City of Yakima Downtown Library Branches for public review and comment.

CONGESTION MANAGEMENT PROCESS

YVCOG is not a Transportation Management Area (TMA) and is not required to have a Congestion Management Process (CMP).

AIR QUALITY CONFORMITY

The Yakima Valley has a limited maintenance plan for PM_{10} . All projects in the 2024 - 2027 M/RTIP demonstrated that PM_{10} levels do not exceed thresholds established for conformity and for attaining and maintaining healthful air quality standards.

These April 2024 amendments to the Greater Yakima Area M/RTIP have neutral air quality impacts and are found to be in conformance with federal air quality standards. The conformity determination for the 2024 - 2027 M/RTIP is in Section 10 of the 2024-2045 M/RTP.

The Environmental Protection Agency (EPA) re-designated the Yakima PM_{10} nonattainment area to "attainment" for the National Ambient Air Quality Standards (NAAQS) and approved a limited maintenance plan (LMP) effective March 10, 2005, for PM_{10} for a period of 20 years. The LMP will expire for PM_{10} on March 10, 2025.

METROPOLITAN TRANSPORTATION PLAN CONSISTENCY

The projects included in the April 2024 amendments are consistent with the goals of the *Yakima Valley Metropolitan & Regional Transportation Plan 2024-2045* and local comprehensive plans.

INTERMODAL/MULTIMODAL APPROACH

Projects in the Greater Yakima Area M/RTIP provide for the development of an integrated transportation network that focuses on the safe and efficient movement of people and goods.

The Greater Yakima Area M/RTIP includes street, bicycle, pedestrian, rail, safety, bridge, highway, and transit related projects.

CROSS-REGIONAL CONSISTENCY

There are no adjacent MPOs. Cross-regional consistency of the M/RTIP is achieved by active participation among the member jurisdictions within the Yakima County region.

ADVANCING EQUITY IN REGIONAL TRANSPORTATION PLANNING

Regional planning agencies make decisions that shape transportation, land use, and the built environment. The Yakima Valley Conference of Governments strives to advance, implement, and maintain equitable transportation planning and outreach efforts in our MPO/RTPO regular operations, and work to bring our region's agencies together to learn about equity and transportation planning in their communities.

FAST & IIJA ACTS PERFORMANCE MEASUREMENTS REQUIREMENTS

In 2017, as required in 2015's *Fixing America's Surface Transportation* (FAST) Act, WSDOT and the state's MPO/RTPOs began a collaborative process to develop various performance measures on a statewide and local level to better gauge local and state impacts and benefits of the region's transportation network which have received federal funding. These requirements are continued through 2021's *Infrastructure Investment & Jobs* (IIJA) Act also known as the "Bipartisan

Infrastructure Law" (BIL). The rules require WSDOT, in coordination with local MPO/RTPO's to measure and report performance in the following areas: safety, pavement and bridge, system performance/congestion, freight movement, and congestion mitigation and air quality (CMAQ).

Pavement and Bridges

RCW 47.05 and the Washington State Department of Transportation's (WSDOT's) Highway System Plan set the direction for management of infrastructure condition in Washington State, which is to preserve pavements and bridges at lowest life cycle cost. The lowest life cycle strategy for any pavement or bridge is the strategy that maintains acceptable condition at the lowest annualized cost over the life of the asset. WSDOT has demonstrated this by taking a preservation first approach to pavement and bridge management over several decades.

Local agencies manage approximately 31% of the non-Interstate National Highway System (NHS) in Washington State. Using the <u>Target Setting Framework</u>, WSDOT worked with Metropolitan Planning Organizations (MPOs) to establish performance measures and communicate its pavement and bridge management practices, as well as what these practices mean in the context of the National Highway System (NHS). WSDOT has also communicated the annual average state facility needs for pavements and bridges within each MPO boundary. Further supporting asset performance and investments on the NHS, WSDOT Local Programs issued a call for projects specifically focused on asset management practices, for pavements on NHS roadways.

Washington MPOs & WSDOT have agreed to plan and program projects to work towards and achieve Washington pavement and bridge condition targets for infrastructure condition under 23 CFR 490. As required under 23 CFR 515, the specific strategies for pavement and bridge preservation are documented in WSDOT's <u>Transportation Asset Management Plan</u>, certified by FHWA in May 2018.

System Performance, Freight, and CMAQ

In 2018, Washington State Metropolitan Planning Organizations (MPOs) and the Washington State Department of Transportation (WSDOT) set, adopted, and reported to FHWA statewide targets for the Highway System Performance, Freight, and Congestion Mitigation and Emissions performance measures. Washington State MPOs and WSDOT are working to improve the planning and programming process to align funding decisions more fully with performance targets.

In Washington State, many of the projects selected to address mobility are prioritized through the legislative process. For this reason, it is essential that WSDOT, MPOs, regional transportation planning organizations (RTPOs), and local agencies coordinate their transportation planning efforts to develop transportation priorities that contribute towards performance targets and can be shared with lawmakers.

One such way WSDOT and its partner MPOs and RTPOs are working to make performance-supporting projects and programs clear to the legislature is through the Plan Alignment Work Group. A major focus of the group is to increase the consistency between regional plans and WSDOT's statewide plans, which includes sharing and collaboratively perfecting the data and information necessary to identify a comprehensive list of financial forecasts, maintenance needs, and project priorities related to the state system within MPOs and RTPOs.

Another way WSDOT and its partners are assessing performance and target achievement is through the Regional Integrated Transportation Information System (RITIS) data tool. The state's financial participation makes this tool available for WSDOT and MPOs to use the system in evaluating regional targets and to assist in other decision-making processes.

To guide freight investments and improve freight system performance in Washington, WSDOT developed the 2017 Washington State Freight Investment Plan by engaging various freight partners

YVCOG 2024 – 2027 M/RTIP April 2024 Amendments April 15, 2024

and stakeholders, including MPOs and RTPOs. The Freight Investment Plan identified freight priority projects and described how those priorities would be invested and funded through FFY 2022-2026 National Highway Freight Program (NHFP) funds. Those NHFP investments would be incorporated into STIP and TIPs contributing to improving statewide freight performance on National Highway Freight Network.

Over the coming years WSDOT and its partners will further align planning and programming with performance. All are committed to developing practical approaches to work towards our regional and statewide performance targets.

Public Transportation Agency Safety Plan (PTASP)

The Public Transportation Agency Safety Plan (PTASP) regulation, at 49 C.F.R. Part 673, requires covered public transportation providers and State Departments of Transportation (DOT) to establish safety performance targets (SPTs) to address the safety performance measures (SPMs) identified in the National Public Transportation Safety Plan (49 C.F.R. § 673.11(a)(3)).

A safety performance target is a quantifiable level of performance or condition expressed as a value for the measure related to safety management activities to be achieved within a set time period (§ 673.5). A safety performance measure is a quantifiable indicator of performance or condition that is used to establish targets related to safety management activities, and to assess progress toward meeting the established targets (§ 673.5). Transit providers may choose to establish additional targets for the purpose of safety performance monitoring and measurement.

This guide provides information to help transit providers develop SPTs based on the SPMs in FTA's National Public Transportation Safety Plan (NSP).

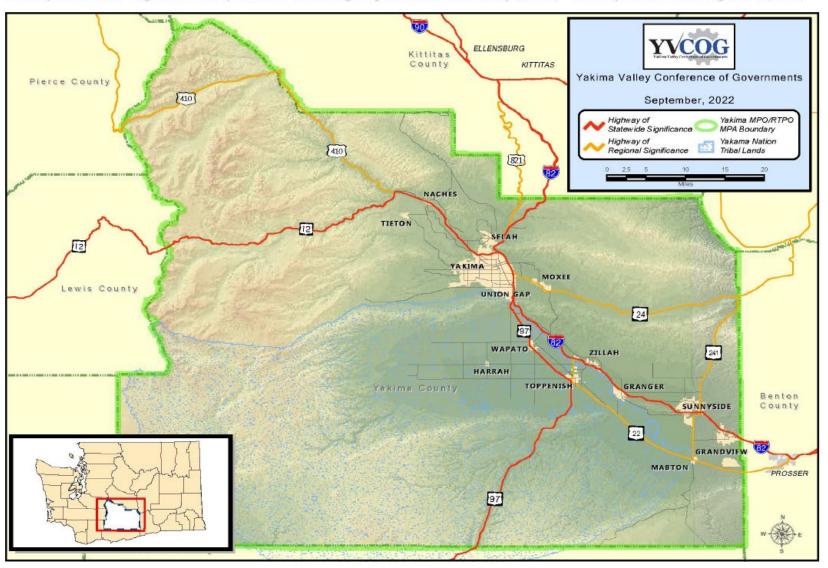

On December 15, 2022, the Yakima City Council adopted it 2022 Yakima Transit Safety Plan.

CONCLUSION

After review and analysis of the Yakima Valley Conference of Governments' M/RTIP amendments for April 2024, and as set forth in the above findings, the Yakima Valley Conference of Governments finds the April 2024 amendments to the Greater Yakima Area 2024 - 2027 M/RTIP in compliance with the requirements of **Sec. 134**, **Title 23 USC**

Resolution 2024-xx

2024-2027 Yakima Valley Metropolitan and Regional Transportation Improvement Program APRIL 2024 AMENDMENTS – FINDINGS

A RESOLUTION of the Yakima Valley Transportation Policy Board affirming the findings of the April 2024 Amendments to the 2024-2027 Yakima Valley Metropolitan and Regional Transportation Improvement Program (hereafter to be known as the M/RTIP).

WHEREAS, the Yakima Valley Conference of Governments (YVCOG), as the federal-designated Metropolitan Planning Organization (MPO) for the Yakima Valley has the responsibility for annually developing and adopting a Metropolitan Transportation Improvement Program, hereafter to be referred to as the M/RTIP; and,

 $\it WHEREAS$, the following jurisdictions have submitted the following projects for inclusion into the 2024-2027 M/RTIP –

City of Yakima	Fred Meyer Active Transportation Pathway		
Addition	(Formerly "40 th & Fruitvale Boulevard Roundabout"). Construct a roundabout at 40 th Ave &		
STIP ID: WA-15117	Fruitvale Blvd. with rectangular Rapid Flashing Beacons (RRFB), New Marked Crosswalk, Green Pavement/Bicycle Intersection Crossing Markings, ADA Curb Ramps, Audible Pedestrian Signal, Bicycle Wayfinding Signs/Markings, Shared-use Path/Trail. PE/RW/CN Phases [Secured] by \$1,630,904 in state Pedestrian/Bicycle Program funding. Total Project Cost: \$1,630,904.		
Total Estimated Project Cost: \$1,630,904

WHEREAS, the projects are based on reasonably available financial resources; and,

WHEREAS, transportation improvement projects within the Yakima Metropolitan Area must be included in the 2024-2027 M/RTIP to be eligible for federal assistance under Federal Transit Administration and Federal Highway Administration funding programs: and,

WHEREAS, the Yakima Valley Transportation Policy Board, in its review of this amendment to the 2024-2027 M/RTIP, formally adopted on October 16, 2023:

- 1. Finds the amended projects contained in this formal amendment to the 2024-2027 M/RTIP to be a realistic program of projects to be implemented by
- 2. local jurisdictions as secured: and,
- 3. Finds the projects contained in the 2024-2027 M/RTIP to be consistent with regional goals, objectives, and policies: and,
- 4. Finds that the projects listed in this formal amendment to the 2024-2027 M/RTIP be financially feasible and,
- 5. Based on these findings, approves the projects submitted by Yakima Valley Conference of Governments to be amended into the 2024-2027 M/RTIP and STIP as Secured.

NOW, THEREFORE, BE IT RESOLVED, that the Yakima Valley Transportation Policy Board adopts the April 2024 amendments to the 2024-2027 Metropolitan and Regional Transportation Improvement Program; and,

BE IT FURTHER RESOLVED that the amended projects listed in this resolution be added to the 2024-2027 Metropolitan and Regional Transportation Improvement Program and transmitted to the appropriate state and federal agencies for review, approval, and inclusion in the 2024-2027 State Transportation Improvement Program (STIP).

Adopted by the Yakima Valley Transportation Policy Board this 15th day of April 2024.

James A. Restucci, Chair Yakima Valley Transportation Policy Board

ATTEST

Tamara Hayward, Financial Specialist Yakima Valley Conference of Governments

Resolution 2024-xx

2024-2027 Yakima Valley Metropolitan and Regional Transportation Improvement Program APRIL 2024 AMENDMENTS – DETERMINATION OF AIR QUALITY CONFORMITY

A RESOLUTION of the Yakima Valley Transportation Policy Board affirming the conformity of the 2024-2027 Yakima Valley Metropolitan and Regional Area Transportation Improvement Program with the Washington State Implementation Plan for Air Quality.

WHEREAS, Yakima Valley Conference of Governments (YVCOG) serves as the designated Metropolitan Planning Organization, hereafter referred to as the MPO, for the Yakima Valley Metropolitan area; and

WHEREAS, the 2024-2027 Yakima Valley Metropolitan and Regional Transportation Improvement Program, hereafter referred to as the M/RTIP, is the basis for distributing federal transportation funds to the Yakima Valley's metropolitan area; and

WHEREAS, the 2024-2045 Yakima Valley Metropolitan & Regional Transportation Plan, hereafter referred to as the MTP, was adopted by the Yakima Valley Transportation Policy Board on March 18, 2024 and provides the long-range transportation plan guiding the development of transportation improvements for the metropolitan and rural areas of the Yakima Valley region; and

WHEREAS, it is necessary to amend the 2024-2027 M/RTIP to add the following projects, modeled when necessary to determine if there are any negative impacts upon air quality in the metropolitan area of the Yakima Valley:

FORMAL amendment(s) to the 2024 - 2027 M/RTIP for April 2024 are:

City of Yakima	Fred Meyer Active Transportation Pathway		
Addition	(Formerly "40 th & Fruitvale Boulevard Roundabout"). Construct a roundabout at 40 th Ave &

WHEREAS, the Federal Clean Air Act Amendments of 1990 and the Rule on Air Quality for Transportation Plans, Programs, and Projects, the Federal Highway Administration, and the Federal Transit Administration all require the Yakima Valley Conference of Governments as MPO to determine that the 2024-2045 MTP and any amendments to the 2024-2027 M/RTIP conform to the Washington State Implementation Plan for Air Quality, hereafter referred to as the SIP, and support the intent of the SIP to achieve and maintain National Ambient Air Quality Standards (NAAQS); and

WHEREAS, the Federal Clean Air Act Amendments of 1990 and the Rule on Air Quality also require that the goals, policies, programs and projects embodied in the 2024-2027 M/RTIP not contradict or adversely impact implementation of transportation control measures for PM₁₀ as identified in the SIP for the Yakima Valley PM₁₀ maintenance area; and

WHEREAS, YVCOG, in amending this project from the 2024-2027 M/RTIP has assessed PM₁₀ mobile source emissions in full compliance with current federal statutes and regulations; and,

WHEREAS, in preparing the assessment for this amendment, YVCOG used the most recent estimates of existing and future population, employment, travel demand characteristics, system capacities on the modeled transportation system, as well as mobile source emission factors provided by the Washington State Department of Ecology; and,

WHEREAS, this Determination of Conformity demonstrates the following regarding the amended 2024-2027 M/RTIP:

- 1. The amendment of these projects into the 2024-2027 M/RTIP is neutral to the reduction of particulate matter (PM₁₀) in the Yakima Valley PM₁₀ Maintenance Area; and,
- 2. The 2024-2027 M/RTIP need not implement transportation control measures for PM₁₀ as none are currently identified in the approved 2005 Limited Maintenance Plan for Yakima Valley: and,

NOW, THEREFORE, BE IT RESOLVED, the Yakima Valley Transportation Policy Board, finding the quantitative analysis of transportation-related PM10 emissions for the 2024-2027 Metropolitan and Regional Transportation Improvement Programs (M/RTIP) modeled scenarios for the amended 2024-2027 M/RTIP yield far less PM10 than the 1994 budget of 927 tons, declares that the 2024-2027 M/RTIP, as amended, meets the requirements of both state and federal air quality conformity rules (WAC 173-420 and 40 USC Part 51 respectively) for PM10, and is in conformity with the Clean Air Act Amendments of 1990,

Interim Phase II -- Conformity Guidelines for PM10, and 40 CFR Part 41.

Adopted by the Yakima Valley Transportation Policy Board this 15th day of April 2024.

James A. Restucci, Chair Yakima Valley Transportation Policy Board

SR 821/0.7 Miles N of Selah Creek - Stabilize Slope

Scaling and installing permanent ground anchors; Slope 1972. Fractured rock slopes adjacent to SR 821 in this vicinity have a history of rockfall that has reached the highway. Remove loose rocks and install permanent ground anchors to reduce the risk of falling rocks reaching the highway.

US 12/Ackley Rd/Clover Lane - Intersection Safety Improvements

Construct intersection improvements. The intersection of Ackley Road/Clover Lane and US 12 west of Yakima has the potential for collisions involving right turns onto US 12. This project will construct an eastbound right turn acceleration lane on US 12 to prevent freight and passenger vehicle collisions at this intersection.

US 97/SR 22 Intersection - Replace Signal and Illumination

Upgrade illumination system and rebuild signal system. The electrical lighting system and signal system at the US 97/SR 22 Intersection on US 97 at Toppenish have deteriorated due to age. This project will replace the lighting system and rebuild the signal to ensure adequate lighting and signal function for the intersection area.
